**ESKİŞEHİR OSMANGAZİ UNIVERSITY**  
**FOREIGN STUDENT PLACEMENT PRINCIPLES**

- 1) The international student candidate can apply to a maximum of 5 programs and is placed in only one program.
- 2) The scores of the candidates who meet the application requirements are ranked by converting the scores into a hundred system in which 100 (hundred) is regarded as the highest.
- 3) The number of candidates who have the right to register from the same country cannot exceed 20% of the total quota of the related program. In case quotas are not filled, the candidates are placed in the quotas that are not filled in order of success score, regardless of this rule. Provision of article 6 is reserved.
- 4) In case the students end up being equal and achieving identical scores in the placement to the quotas, first, the student with higher high school diploma grade is given priority, if still they share the same score, the younger age is favoured. In case the candidates have the same age, the preference order of the candidates is considered.
- 5) A restriction regarding the Nationalities may be placed for International Students to be taken in the specified academic year by the decision of the University Administrative Board.
- 6) In accordance with the principles regarding the acceptance of students from abroad, a 10% quota limitation is placed for all departments for the applications of blue card holder candidates who have the opportunity to apply for the student admission from abroad and Turkish Republic nationals who received their secondary education abroad before 01/02/2013 and completed the last three years of secondary education (high school) in a foreign country except TRNC (including those who completed all secondary education (high school) in Turkish schools opened in a foreign country except TRNC (except TRNC)), candidates from dual nationality whose one of the nationalities is Turkish Republic, and nationals of Syria and Greece.
- 7) The actual placements are made by placing the students who have a valid score for the application according to the International Exam Results (SAT1, ACT, etc.) specified in Table 1. In case of vacancy, placement is made according to the national exam results stated in Table 2. If there is still vacant places remaining after this placement process, placement is made considering the students with higher grades according to the high school diploma grade and high school graduation exam results (Abitur, Matura, GCE AL etc.) specified in Table 3.
- 8) Additional placements can be made to unregistered or vacant quotas. When deemed necessary, a commission appointed by the Rector can make placements to the quotas with an evaluation to be made regardless of the above placement principles.
- 9) Additional placements can be made to the quotas that are vacant after the additional placement or disenrollment, considering the new applications to be accepted on the dates determined by the ESOGÜ Administrative Board.
- 10) The student who has the right to register – even if s/he did not register for the program in which s/he was placed – has no right to re-apply and make another choice in case of an announcement for an additional quota within the same academic year.
- 11) Students who will prefer programs accepting students with special talent exam must take the talent

exams held by the Faculty of Art and Design.

12) As a result of the preliminary examination of online applications, the applicants who do not meet the application requirements are not evaluated.

13) Students who do not register on the registration dates lose their right to enrol.

14) The applications of the candidates who make false statements, who are found to mislead the administration with any action or activity are rejected. If these candidates are registered, they are cancelled.

15) Registration by proxy is not made on any account.
